

Growing healthy, step by step

Here's a helpful way to
track immunizations at
well-child visits.

**Select
Health**

Your child's name _____ Birthday ___/___/___

Newborn Date of visit ___/___/___

- Hepatitis B

Did you know?

Some vaccines are combined, so 2 or 3 shots at a visit can protect against several diseases. Talk with your child's doctor to learn more.

2 months

- Hepatitis B
 DTaP (Diphtheria, tetanus, acellular pertussis)
 Hib (Haemophilus influenza type b)

Date of visit ___/___/___

- Pneumococcal
 Polio
 Rotavirus*

4 months

- DTaP (Diphtheria, tetanus, acellular pertussis)
 Hib (Haemophilus influenza type b)

Date of visit ___/___/___

- Pneumococcal
 Polio
 Rotavirus*

6 months

- DTaP (Diphtheria, tetanus, acellular pertussis)
 Hib (Haemophilus influenza type b)
 Hepatitis B

Date of visit ___/___/___

- Pneumococcal
 Polio
 Rotavirus*

These immunizations can happen anytime after 6 months.

- Influenza COVID-19

12-15 months

- DTaP (Diphtheria, tetanus, acellular pertussis)
 Hib (Haemophilus influenza type b)
 Hepatitis A

Date of visit ___/___/___

- Pneumococcal
 Varicella** (Chicken pox)
 MMR (Measles, mumps, rubella)

18 months

- Hepatitis A

Date of visit ___/___/___

* Some Select Health plans may not cover the rotavirus immunization. Check your benefits to see what's covered.

** Your child won't need the varicella vaccine if they've already had the chicken pox.
