## Select Health

## CODING/REIMBURSEMENT POLICY

# THERAPEUTIC, PROPHYLACTIC, AND DIAGNOSTIC AND INFUSIONS POLICY (OFFICE-BASED)

Policy #10

Implementation Date: 1/1/04

Review Date:

Revision Date: 1/1/05, 1/1/06, 1/1/09, 10/1/09, 7/1/10, 9/24/14, 8/7/25

#### Disclaimer:

1. Policies are subject to change without notice.

2. Policies outline coverage determinations for Select Health Commercial, Select Health Medicare (CMS), and Select Health Community Care (Medicaid) plans. Refer to the "Policy" section for more information.

**Related Medical Policies:** 

#09 Hydration (Office-Based)

#11 Chemotherapy and Other Highly Complex Drug or Biologic Agent Administration (Office-Based)

## Information

The "initial" drug administration code that best describes the key or primary reason for the encounter should always be reported irrespective of the order in which the infusions or injections occur.

According to the AMA CPT manual: "The fluid used to administer the drug(s) is incidental hydration and is not separately reportable."

## COMMERCIAL PLAN POLICY AND CHIP (CHILDREN'S HEALTH INSURANCE PROGRAM)

Select Health considers the following to be included (not reported separately) in therapeutic, prophylactic, and diagnostic injections/infusions:

- Standard tubing, syringes, and supplies
- Access to indwelling IV, subcutaneous catheter, or port
- · Use of local anesthesia
- IV start The infusion time does not begin until after the IV is started and in progress. Twenty
  minutes of time will be deducted from a listed infusion time if documentation does not specify the
  IV was started prior to the therapeutic, prophylactic, or diagnostic injections or infusions service
- CPT code 96366 is not reimbursed unless the infusion time listed is 31 minutes beyond the first hour of infusion reported with CPT code 96365.
- Time leading up to the discontinuation of the IV is included in the therapeutic, prophylactic, or diagnostic injection/infusion service and is not reported separately, including monitoring the patient post-infusion. Time spent post-infusion to instruct the patient is included in the codes for therapeutic, prophylactic, or diagnostic injections or infusions and should not be counted in the infusion time.
- Flush at conclusion of infusion The time required for the flush is included in the hydration administration codes and cannot be used as part of the infusion time. Code 96523 for flushing or irrigation of an implanted vascular access port or device before or after chemotherapeutic or nonchemotherapeutic drug administration is included in chemotherapy and cannot be reported separately.
- Peripheral vascular access devices placed for intravenous or intra-arterial infusion and injections (36000, 36410) are included in therapeutic, prophylactic, and diagnostic injections/infusions and cannot be separately reported with codes 96365–96379.
- CPT code 99211 is not reportable with chemotherapy and non-chemotherapy drug/substance administration codes.
- Code 96523 is not reportable when an injection or infusion is provided on the same day.

- Code 96365 is reported for the initial infusion for the service, which is greater than 15 minutes up to 1 hour. If the infusion does not require more than 15 minutes to administer an initial IV push code will be paid instead of code 96365.
- Fluid administration that is performed sequentially on the same day as another infusion service (e.g., therapeutic drug, transfusion, chemotherapy) may be reported separately but requires a separate diagnosis code; the fluid administration code must be appended with modifier 59.
- When IV push or infusion is an inherent part of a procedure do not report codes 96365–96379
   (e.g., administration of contrast material for a diagnostic imaging study).
- Code 96367 will be reimbursed only once per sequential infusion of same IV fluid mix.
- Code 96368 will only be reimbursed once per encounter.
- Code 96372 will be denied when an injection is performed without direct physician supervision.

An "initial" drug administration code is reported only once per encounter. After the "initial" code is determined, "subsequent," "sequential," and "concurrent" codes are reported regardless of the subsection where the code appears (e.g., Hydration, Therapeutic, Prophylactic, and Diagnostic Injections and Infusions; Chemotherapy Administration; etc.). For example, the first IV push after an initial infusion is reported using a "subsequent" IV push code.

#### **Covered Services and Modifier Information**

Office/outpatient evaluation and management CPT codes (99201–99205, 99212–99215) are separately reportable with modifier 25 if the physician provides a significant and separately identifiable E&M service.

#### Other Information

For further guidelines and information on this Chemotherapy Policy, refer to the National Correct Coding Initiative Policy Manual for Medicare Services; the National Correct Coding Initiative pertinent to the date of service; the 2025 Injections and Infusion Administration Codes for Chemotherapy and Non-Chemotherapy Drugs by the Centers for Medicare and Medicaid Services; Hydration, Therapeutic, Prophylactic, and Diagnostic Injections and Infusions, and Chemotherapy Administration guidelines in Current Procedural Terminology (CPT) 2025; and Reporting Drug Administration's Services for 2006, CPT Assistant Volume 15, Issue 11, November 2005.

## **SELECT HEALTH MEDICARE (CMS)**

Select Health Medicare will follow the commercial plan policy.

## **SELECT HEALTH COMMUNITY CARE (MEDICAID)**

Select Health Community Care will follow the commercial plan policy.

## **Applicable Codes**

Codes	Descriptions
96365	Intravenous infusion, for therapy, prophylaxis, or diagnosis (specify substance or drug); initial, up to 1 hour
96366	Intravenous infusion, for therapy, prophylaxis, or diagnosis (specify substance or drug); each additional hour (List separately in addition to code for primary procedure)
96367	Intravenous infusion, for therapy, prophylaxis, or diagnosis (specify substance or drug); additional sequential infusion, up to 1 hour (List separately in addition to code for primary procedure)
96368	Intravenous infusion, for therapy, prophylaxis, or diagnosis (specify substance or drug); concurrent infusion (List separately in addition to code for primary procedure) for primary procedure)
96369	Subcutaneous infusion for therapy or prophylaxis (specify substance or drug); initial, up to 1 hour, including pump set-up and establishment of subcutaneous infusion site(s)

additional hour (List separately in addition to code for primary procedure  96371 Subcutaneous infusion for therapy or prophylaxis (specify substance or drug); additional pump set-up with establishment of new subcutaneous infusion site(s) (List separately in addition to code for primary procedure)  96372 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); subcutaneous or intramuscular  96373 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intra arterial  96374 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intravenous push, single or initial substance/drug  96375 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of a new substance/drug (List separately in addition to code for primary procedure)  96376 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  96379 Unlisted therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402 Chemotherapy administration; intralesional, up to and including 7 lesions  96405 Chemotherapy administration; intralesional, more than 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96407 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96411 Chemotherapy administration; intravenous infusion technique; up to 1 hour, single of initial substance/drug		Subcutaneous infusion for therapy or prophylaxis (specify substance or drug); each
Subcutaneous infusion for therapy or prophylaxis (specify substance or drug); additional pump set-up with establishment of new subcutaneous infusion site(s) (Lis separately in addition to code for primary procedure)  96372 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); subcutaneous or intramuscular  96373 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intra arterial  96374 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intravenous push, single or initial substance/drug  96375 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of a new substance/drug (List separately in addition to code for primary procedure)  96376 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  96379 Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402 Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96407 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96370	
Separately in addition to code for primary procedure	96371	
96372 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); subcutaneous or intramuscular  96373 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intra arterial  96374 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intravenous push, single or initial substance/drug  96375 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of a new substance/drug (List separately in additional sequential intravenous push of a new substance/drug (List separately in additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  96379 Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402 Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug		additional pump set-up with establishment of new subcutaneous infusion site(s) (List
Subcutaneous or intramuscular		separately in addition to code for primary procedure)
Subcutaneous or intramuscular		
Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intra arterial  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intravenous push, single or initial substance/drug  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of a new substance/drug (List separately i addition to code for primary procedure)  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal anti neoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal anti- neoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96372	
96374 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intravenous push, single or initial substance/drug  96375 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of a new substance/drug (List separately in addition to code for primary procedure)  96376 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  96379 Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402 Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous infusion technique; up to 1 hour, single of initial substance/drug	06272	
Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); intravenous push, single or initial substance/drug  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of a new substance/drug (List separately addition to code for primary procedure)  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); eac additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	903/3	
intravenous push, single or initial substance/drug  96375 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); each additional sequential intravenous push of a new substance/drug (List separately in addition to code for primary procedure)  96376 Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); each additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  96379 Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402 Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96374	
Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); each additional sequential intravenous push of a new substance/drug (List separately in addition to code for primary procedure)  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); each additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	30074	
additional sequential intravenous push of a new substance/drug (List separately in addition to code for primary procedure)  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); each additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96375	
addition to code for primary procedure)  96376  Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); each additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  96379  Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  96401  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405  Chemotherapy administration; intralesional, up to and including 7 lesions  96406  Chemotherapy administration; intralesional, more than 7 lesions  96409  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug		
additional sequential intravenous push of the same substance/drug provided in a facility (List separately in addition to code for primary procedure)  Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug		addition to code for primary procedure)
facility (List separately in addition to code for primary procedure)  Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96376	Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); each
96401 Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection of infusion  96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402 Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug		
infusion  Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	00070	
96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal antineoplastic  96402 Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single or initial substance/drug	96379	
neoplastic  Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  Chemotherapy administration; intralesional, up to and including 7 lesions  Chemotherapy administration; intralesional, more than 7 lesions  Chemotherapy administration; intravenous, push technique, single or initial substance/drug  Chemotherapy administration; intravenous, push technique, each additional substance/drug  Chemotherapy administration; intravenous infusion technique; up to 1 hour, single of initial substance/drug	96401	
96402 Chemotherapy administration, subcutaneous or intramuscular; hormonal antineoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single or initial substance/drug	30-701	
neoplastic  96405 Chemotherapy administration; intralesional, up to and including 7 lesions  96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96402	
96406 Chemotherapy administration; intralesional, more than 7 lesions  96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug		
96409 Chemotherapy administration; intravenous, push technique, single or initial substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96405	Chemotherapy administration; intralesional, up to and including 7 lesions
substance/drug  96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug		
96411 Chemotherapy administration; intravenous, push technique, each additional substance/drug  96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96409	
96413 Substance/drug Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	00444	
96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single of initial substance/drug	96411

#### Disclaimer

This document is for informational purposes only and should not be relied on in the diagnosis and care of individual patients. Medical and Coding/Reimbursement policies do not constitute medical advice, plan preauthorization, certification, an explanation of benefits, or a contract. Members should consult with appropriate healthcare providers to obtain needed medical advice, care, and treatment. Benefits and eligibility are determined before medical guidelines and payment guidelines are applied. Benefits are determined by the member's individual benefit plan that is in effect at the time services are rendered.

The codes for treatments and procedures applicable to this policy are included for informational purposes. Inclusion or exclusion of a procedure, diagnosis or device code(s) does not constitute or imply member coverage or provider reimbursement policy. Please refer to the member's contract benefits in effect at the time of service to determine coverage or non-coverage of these services as it applies to an individual member.

Select Health® makes no representations and accepts no liability with respect to the content of any external information cited or relied upon in this policy. Select Health updates its Coverage Policies regularly, and reserves the right to amend these policies without notice to healthcare providers or Select Health members.

Members may contact Customer Service at the phone number listed on their member identification card to discuss their benefits more specifically. Providers with questions about this Coverage Policy may call Select Health Provider Relations at (801) 442-3692.
